

Response to queries received for the tender Development of a Domain Registrar Software System for registering Internet domain names under ac.in, edu.in and res.in, in the registry using the EPP registry-registrar protocol.

S.No	Query	Reply
1.	As data migration is included , So we would like to know about the database and database structure. Whether any project coordinator form your side will be there who will have database structure. Knowledge of existing software.	Existing application has been developed in Active Server Pages (ASP) with MSSQL database. Project coordinator from ERNET will provide database structure
2.	As application process requires various approvals side by side like design part, So what will be the approval process.	Successful bidder will be given approval step by step. Bidder will provide SRS, System flow and design. After completion ATR will be signed by project coordinator of ERNET
3.	If there is not sufficient amount in the wallet , Can there be authority to book domain on credit of small amount ?	No
4.	Whether online payment will include credit/debit and net banking also ? Which payment gateway we will be using ?	Yes. Payment gateway of DeitY (paygov) or any alternate payment gateway of any Govt. Bank may be used.
5.	Time to be extended to min of 12 weeks (Development & Implementation time.)	The delivery and installation of software at the site is extended from 4 weeks to 8 weeks from the placement of the purchase order. Then 4 weeks for testing

Amendment in tender document

Following clause may be added in features of software:

- Before deployment of the web application/portal developed, it will be the responsibility of the vendor to get Web security Audit of the portal by government empanelled web security Auditor.
- In current application user/client can register/renew domain for 1 year,2 years and 5 years only. There should be provision for registering for maximum 10 years.
- In master database there should be provision for changing the values like value of prevailing service tax as well as tariff.
